Fleet management services

An overview

Fleet management services

Take the hassle out of managing your fleet

Toyota Fleet Management (TFM) offers a comprehensive range of services to take care of managing your fleet, giving you more time to focus on your core business activities.

Whether you own your vehicles or finance through TFM's competitive funding options*, a complete suite of fleet management services is available to you.

How does it work?

TFM can tailor a package to suit your business needs, from asset finance right through to an all-inclusive fleet management service. And with access to Toyota's strong buying power, we are confident TFM will add value to your business.

Services:

- A full suite of real-time online reporting
- Vehicle acquisition and disposal
- Maintenance control service
- Tyre management
- Fuel management and cards
- Registration and CTP renewals
- e-TAG® management and reporting
- TFM roadside assist
- Infringement management
- Comprehensive insurance
- Fleet policy analysis and advice
- Fleet performance analysis and reporting
- CO₂ analysis and environmental reporting
- FBT analysis and reporting
- Accident and claims management
- Driver training
- Minilease (short-term rental)
- Relief vehicles.

Benefits:

- Reduce administration costs and overheads
- Manage your fleet efficiently
- Monitor and analyse your fleet
- Get an accurate view of 'whole-of-life' costs
- Benchmark your fleet against fleets of a similar size within TFM's portfolio
- Conduct regular reviews to ensure your fleet is operating efficiently.
