Novated lease

A tax-effective way to get into the car you want

Novated leasing is a form of salary packaging that can get you into the car of your choice – any make or model. An agreement needs to be in place between Toyota Fleet Management, your employer and you to take out a novated lease.

How does it work?

Once the agreement is in place you can order the car that suits your lifestyle, and your employer will make the lease payments direct from your pre- and post-tax salary.

 Lease set up	 Payments made	 Employee saves	 Cashless motoring
The employee chooses a car, and an agreement is set up between the employee, the employer and TFM.	The employer makes payments to TFM from the employee's salary.	The employee gets the car they want, saving on tax and running costs including vehicle price, fuel, maintenance and tyre purchases.	The employee enjoys the convenience of cashless motoring.

Features:

- A tax-effective way to finance the vehicle of your choice
- Transparency across all rates, fees and charges
- Discounted vehicle price due to TFM's buying power
- Flexible terms to suit your needs
- Dedicated experts to support you every step of the way.

Benefits:

- Save on the vehicle price and finance rate, thanks to TFM's buying power
- Set and forget with deductions made automatically from your salary
- Enjoy cashless motoring with running costs included
- Have the convenience and savings of a TFM Fuel Card
- Keep the vehicle, even if you change jobs.
